

COVID-19 and Other Infectious Diseases

Join us for complimentary virtual classroom training!

This half-day course covers industry best practices to prevent the spread of coronaviruses and other infectious diseases. It provides information about the causes, prevention, and treatment of COVID-19 and other infectious diseases, plus additional resources, videos, and a tool to customize your infectious disease safety plan.

What You Will Learn:

- Characteristics of an infectious disease
- Transmission of the most common infectious diseases
- Ways to mitigate infectious disease transmission at home and on the work site
- Reliable information sources

This material was produced under the grant SH-99009-SH0 from the Occupational Safety and Health Administration, U.S. Department of Labor. It does not necessarily reflect the views or policies of the U.S. Department of Labor nor does mention of trade names, commercial products, or organizations imply endorsement by the U.S. Government.
